EDUCATION

Kennesaw State University || **Exp. Graduation Dec 2025** || Bachelor of Science in **Software Engineering** Minor in **Mathematics**

- GPA: 3.93 || President's List Spring 2022; Fall 2022; Spring 2023; Summer 2023, Spring 2024 || Dean's List Fall 2021
- **Honors Scholar**
- **Related Coursework:** Calculus I, II, III; Database Systems; Intro to Software Engineering; Linear Algebra, Discrete Mathematics; Systems **Requirements**; Software **Testing** and QA; Computer Organization; **Honors Data Structures**
- **Clubs/Organizations:** **Women in Tech Campus**

SKILLS

Programming Languages: C#, Javascript, HTML/CSS, PHP, React Javascript, Typescript, Java

Communication Skills || Customer Service || Management Skills and Experience || Leadership || Time Management || Social Skills || Visual Studio || R Studio || Git or Github || **Secret Clearance**

EXPERIENCE

Software Engineering Intern May 2024 – Aug 2024 || **Intel** || Atlanta, GA

- On the NEX team, involved in the **full-stack development** of internal applications for Intel's network and infrastructure, responsible for advancing the application's **front-end development**, driving the project towards its go-live phase.
- Completion of **Jira sprint tasks** that include execution and utilization of **React Javascript** and **Typescript** with the **Carbon Design UI** library to create a **user-friendly interface**.
- Tasks include implementation of custom filtering, sorting, pagination features, and data manipulation from API calls using **ASP .NET Core 8**, ensuring seamless backend integration.
- Work also includes **NextJs App Routing** architecture, addition of logs within the backend framework using **model-view-controller** design pattern, **database migrations**, and creation of **REST API endpoints** and testing.

Student Assistant – Web Development Aug 2023 – Present || **Georgia Tech Research Institute** || Atlanta, GA

- On the software development project team, involved in the designing and **full-stack development** of management tools for the ELSYS IT lab using **PHP, HTML, Javascript, SQL, and MySQL, MariaDB Databases**.
- Completion of tasks regarding **bug fixes** and implementation of new organization and **user-friendly components**.
- Managing and resolving tier one and tier two **IT tickets** for the researchers and engineers of the ELSYS and ASL labs, including unclassified media creation, licensing issues, Virtual Machine creation, and more.
- Installing software, deploying hardware requests that involve the building of new machines, and maintaining the inventory available.

Corporate IT Intern May 2023 – July 2023 || **Republic National Distributing Company** || Atlanta, GA

- Supporting Warehouse Management Tools operations on **full stack development**.
- Assisting in creating endpoints within the backend, unit testing, as well as creating components in the frontend for the User Interface and presenting demos of completed UI application work to business leaders of the company.
- Working with a team of interns on a capstone project to improve the company processes.
- Gained hands-on experience with **API's, React, HTML, C#, Javascript, Redux, NodeJS, MaterialUi, VS Code, Github, Databases (MySql), and MVC processes**.

Substitute Teacher Nov. 2021 - Present || **Paulding and Cobb County School District** || Dallas and Kennesaw, GA

- Maintenance of **effective communication** with school staff and administration while adhering to all school policies and procedures to ensure a safe and respectful learning environment. Manage classroom behavior and discipline issues in a calm and professional manner.
- Requires ability to **adapt quickly** to different environments, teaching styles, age levels, behaviors and colleagues and a flexibility to **handle unexpected situations**.
